What are the benefits of using this agreement?

- The purpose of this Framework Agreement is to deliver an efficient and compliant route to market for participating public bodies, by minimising the resource requirement and providing value for money.
- The procurement strategy, tender documentation and evaluation have been undertaken by the tender working party which consisted of experienced AV Technicians, managers and purchasing experts from institutions within the participating consortia membership.
- Framework Levy - 0.5% on supplier turnover
- Member rebate scheme - quoted by supplier, based on aggregated annual spend, and applicable for the lifetime of any call-offs ie notwithstanding the expiry of the Framework Agreement. This provides a 'gain-share' benefit, reflecting the fact that greater efficiencies are obtainable where larger spend is awarded through the Framework.
